The World of KERBEDANZ

An independent vision of haute horlogerie.

Where craftsmanship, innovation and
creation define every timepiece.

K E R B E D a N Z

Independent Swiss watchmaking manufacture based in
Neuchâtel (watch metropolis area)

Established in 2011

Managed by Vahé Vartzbed as CEO
Co-founded by Kalust Zorik & Aram Petrosyan

K E R B E D A N Z

A Word from the Founders and Leadership

“A strong brand is built when vision, product, and delivery align, every time, for every partner. My role is to give KERBEDANZ the right structure without ever diluting creativity. We protect rarity, consistency, and long-term value, so each piece remains as credible as it is desirable.”

Kalust Zorik, President, Co-founder

“Years in high watchmaking have taught me that true luxury is never about noise; it’s about discipline, coherence, and uncompromising execution. At KERBEDANZ, we create timepieces that carry meaning, where engineering serves emotion and every detail has a purpose. I have never experienced such a level of freedom at every step of the creative process and in the métiers d’art with any brand throughout my career. Each decision is guided by one goal: to deliver a piece of art that feels as exceptional in the hand as it looks on the wrist.”

Vahé Vartzbed, Chief Executive Officer

“I approach design as wearable architecture: a disciplined balance of proportion, tension, and a signature silhouette you recognize instantly. At KERBEDANZ, movement is not hidden inside the case it is part of the design language itself. Micro-mechanics become a performance, an expression of identity rather than a secret. Our DNA is rooted in this philosophy: architecture in form, choreography in motion, and uncompromising precision in detail. Every line, every angle, every complication serves a purpose. The aim is simple to create pieces that feel inevitable, as if they could only exist this way.”

Aram Petrosyan, Chief Designer Officer, Co-founder

K E R B E D A N Z

*More than a brand name.
A statement.*

The name **KERBEDANZ** is derived from its founders' names
and carries a singular meaning:

“Forerunners.”

A declaration of intent that defines the Maison's approach,
always driven by vision, creation and anticipation.

K E R B E D A N Z

More than a brand name. A statement.

The Master's Mark

Present exclusively on timepieces crafted in precious metals, the KERBEDANZ master's mark embodies the fusion of the letters B and E from the Maison's name. Its form is deliberately oriented both towards the sky and towards the earth.

This symbol expresses a founding belief of the Maison: That creativity and beauty originate from the divine and are brought to life on earth through human hands.

At KERBEDANZ, this transformation takes form on the wrist. Where inspiration becomes matter, and time becomes creation.

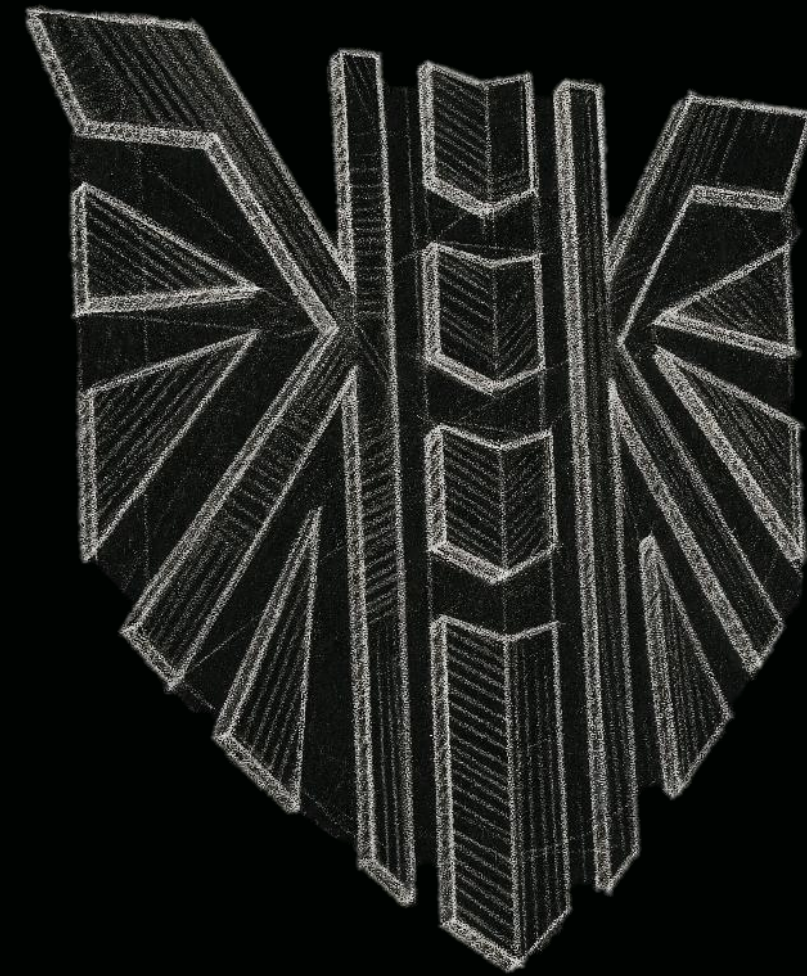

The meaning of our symbol

NEUCHÂTEL SEAL

The meaning of our symbol

OUR MISSION

Creating a common path between the
craftsmanship legacy and a vision of
innovation to reach the excellence and
unicity of creating unexpected timepieces

Crafting your singularity

TIMELINE

2011

Creation of the *Manufacture d'Habillage & Métiers d'Art*

At the same time, Aram Petrosyan begins developing a proprietary enamel technique, known as the KERBEDANZ Glazing, which lays the foundations for KERBEDANZ enameling.

2013

KERBEDANZ ranks among the Top 2 at the International Chronometry Contest with the KRB01 tourbillon caliber.

The Maison makes its first appearance at Baselworld, presenting the Quintum, a tourbillon minute repeater with animation.

2016

2018

KERBEDANZ makes its first appearance at the Grandes Complications Salon in Dubai, presenting the Polvs Articus, a double tourbillon with GMT.

September 2011
The creation and sale of the first KERBEDANZ handcrafted tourbillon mark the birth of the Maison.

Establishment at 51 Rue des Moulins in Neuchâtel

2012

KERBEDANZ ranks among the Top 5 at the International Chronometry Contest, with its KRB03 automatic caliber.

2015

KERBEDANZ moves to its current showroom at 8 Rue Pury in Neuchâtel, marking a new chapter for the Maison.

First exhibition in Las Vegas.

2017

After seven years of R&D and two patents, KERBEDANZ reaches a milestone, unveiling MAXIMUS, the world's largest tourbillon.

First appearance at SIAR.

Delivery of the Rosslin timepiece to the Vatican Museums, for the Pope Francis.

TIMELINE

2019

The GR8 design concept takes shape, initiated by Aram Petrosyan.

2025

KERBEDANZ expands its collection with the introduction of three new models: MAXIMA GR8, the Maison's third tourbillon, MAXSPOR GR8 in 41 mm, and 65'27", a minimalist creation with a distinctive tine display.

Daniel Bernhardt is appointed Brand Ambassador.

2027

KERBEDANZ is named official sponsor of the China GT Championship.

For the first time, a KERBEDANZ timepiece enters the secondary market, with the sale of *Tribute Thailand* at Christie's

2023

KERBEDANZ unveils its first complete collection, introducing MAXIMUS GR8 and MAXSPOR GR8, and its first monopusher chronograph, driven by the KRB14 caliber.

The Maison also announces the appointment of Thibaut Courtois as Brand Ambassador.

2026

The next chapter is about to begin.

K E R B E D A N Z

Three Paths. One Maison.

At KERBEDANZ, every creation is guided by one of three distinct paths.

Three pillars.
Three ways to experience the Maison.

The first represents the ultimate expression of KERBEDANZ.
The creation of a unique timepiece, conceived entirely to measure.
A singular experience, where a watch is born from dialogue and crafted for one
wearer alone.

The second one will come...

OUR BEGINNING JOURNEY

K E R B E D a N Z

KERBEDANZ, Master Watchmaker to MIPs

Since its inception, KERBEDANZ has united age-old artisanal *savoir-faire* with an uncompromisingly avant-garde vision. Renowned for the absolute rarity of its creations, the Maison does not speak of simple “customization”, but of singular exception. At the heart of the atelier, each connoisseur is invited into an intimate dialogue with Chief Design Officer Aram Petrosyan. From this exchange, the outline of a future masterpiece emerges, line by line, a timepiece designed, conceived, and crafted entirely to measure for its recipient.

The entire watchmaking ecosystem is then orchestrated to deliver the ultimate experience:

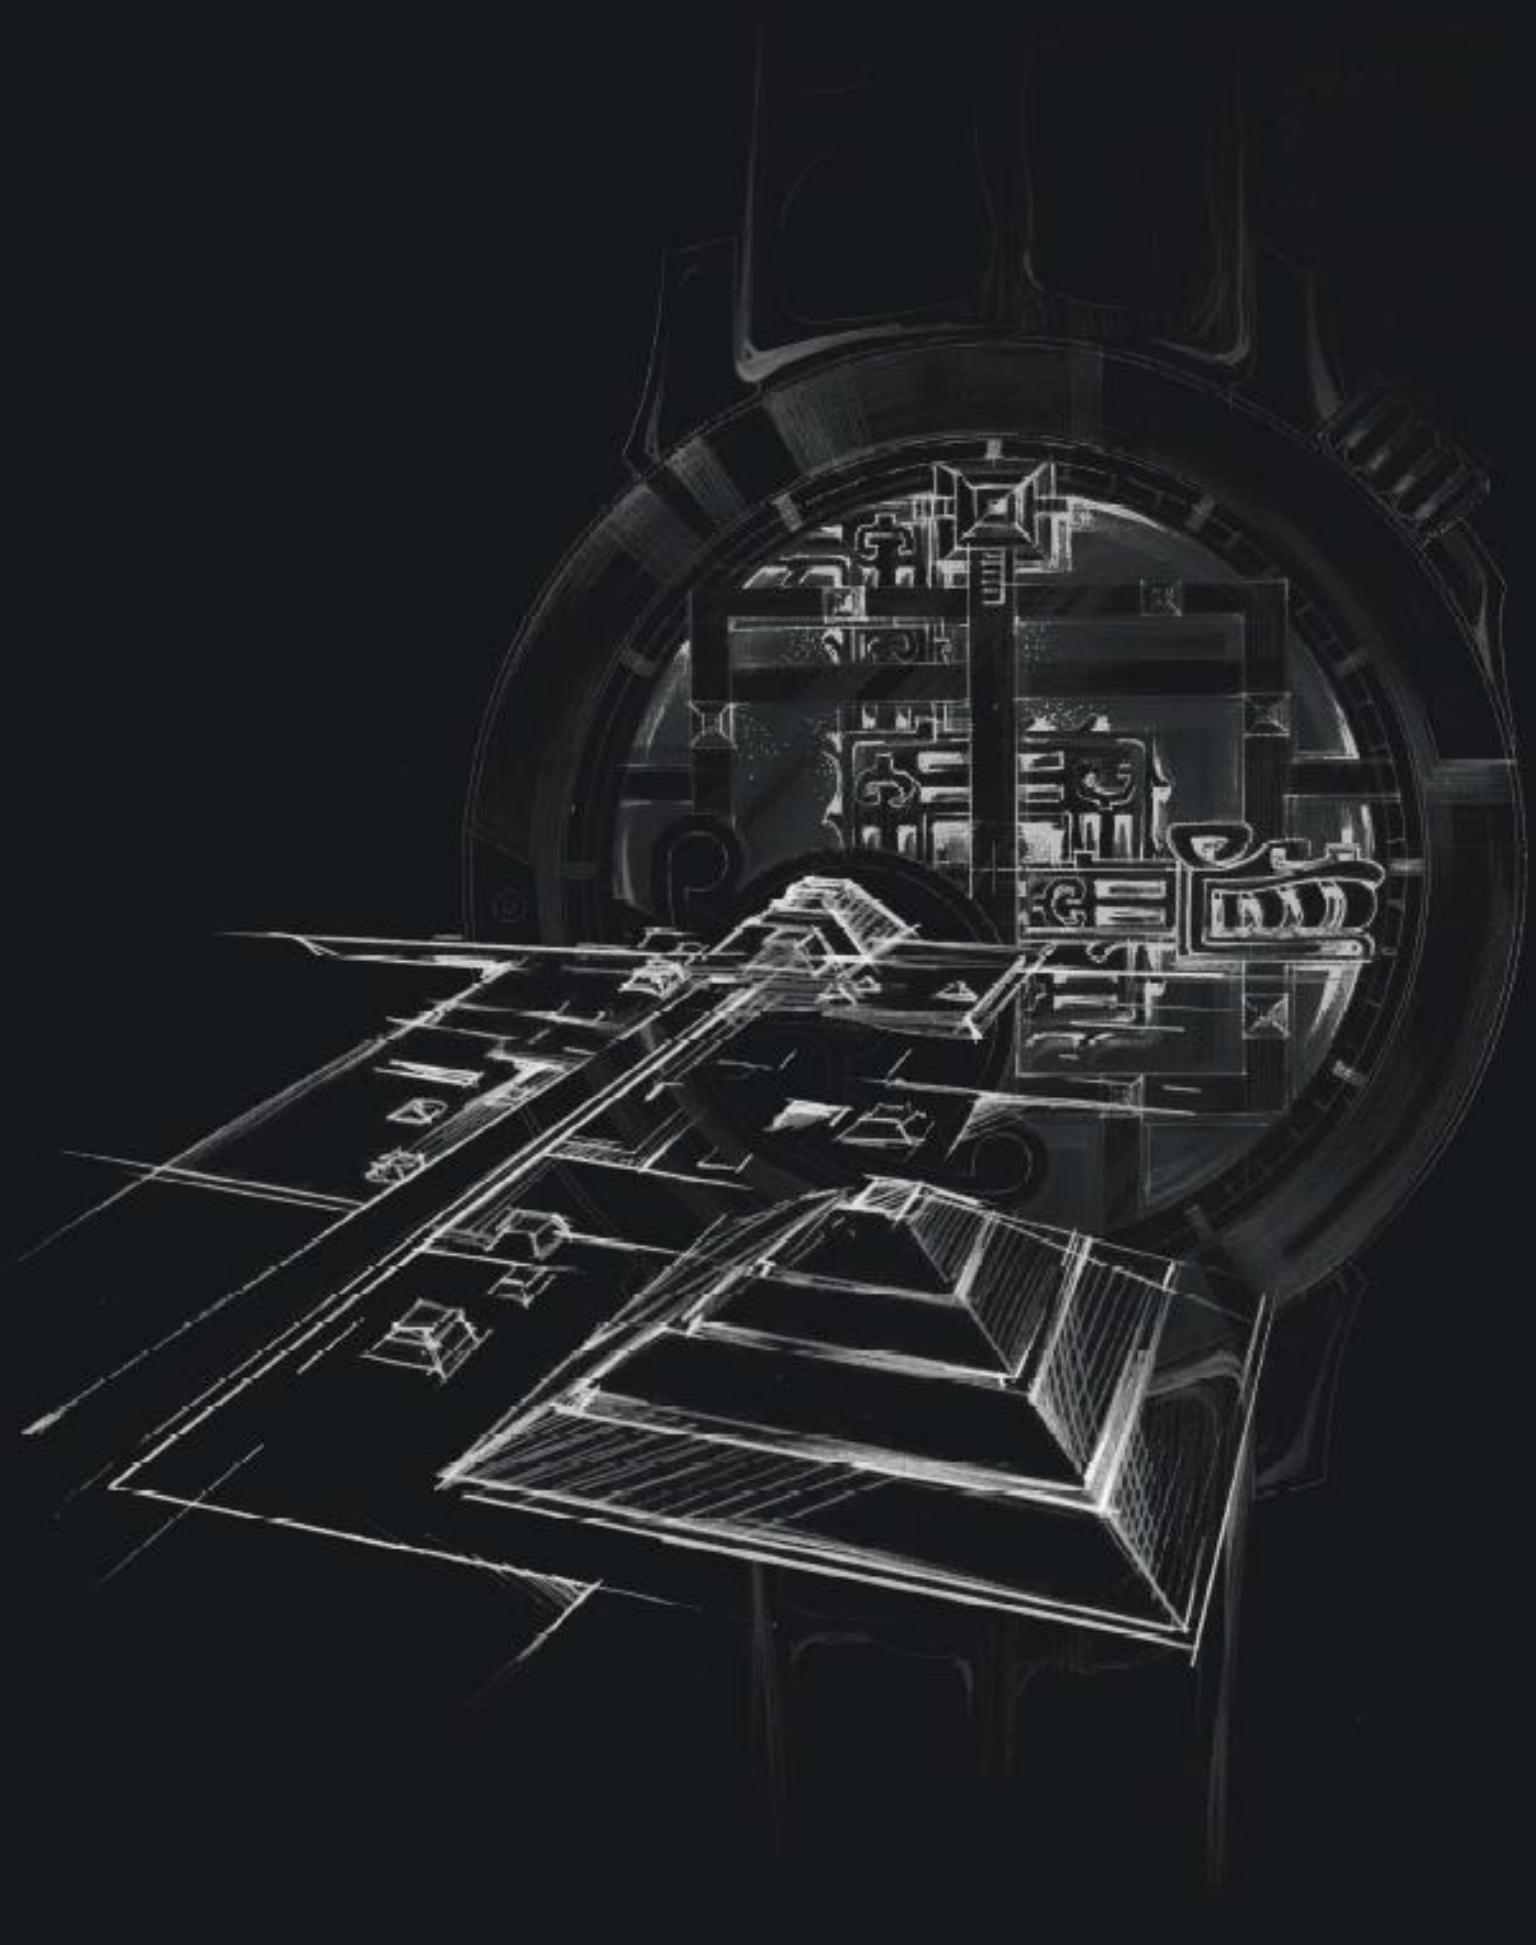

- Case and crystal, sculpted according to the client’s wishes
- Dial and materials, selected for their beauty and symbolism
- Gem-setting and craftsmanship, pushed to the highest level of refinement
- Movement and complications, developed to express a singular watchmaking vision

KERBEDANZ does not create timepieces.

It orchestrates pieces of destiny, where every element responds to the will of a single person, the one who will wear them.

Now, Your Story Begins !

Every unique KERBEDANZ timepiece begins with a conversation.

An exchange where intention becomes design, and design becomes time.

To begin this journey, we invite you to enter into dialogue with the Maison.

A single exchange is all it takes to give form to what has never existed before.

One creation.

One wearer.

Your story.

This is not customization.

It is a personal narrative, translated into time.

K E R B E D A N Z

KERBEDANZ: From Unique Creations to the Birth of an Exceptional Collection

Long dedicated to creating exceptional bespoke timepieces, KERBEDANZ reached a defining moment: to affirm its identity beyond individual commissions. How could the Maison express itself through a collection bearing a truly unique DNA?

The answer was clear: to envision a lasting, emblematic collection, capable of carrying KERBEDANZ's uncompromising pursuit of excellence onto the international stage.

The arrival of an extraordinary timepiece, free from conventional watchmaking codes, marked this turning point.

The largest tourbillon ever created for the wrist, a record that remains unmatched, opened an entirely new horizon for the Maison.

With this iconic creation, KERBEDANZ asserts its signature, shines on the global stage, and continues its unwavering tradition of absolute perfection.

K E R B E D A N Z

Three Paths. One Maison.

At KERBEDANZ, every creation is guided by one of three distinct paths.

Three pillars.

Three ways to experience the Maison.

The first represents the ultimate expression of KERBEDANZ.

The creation of a unique timepiece, conceived entirely to measure.

A singular experience, where a watch is born from dialogue and crafted for one wearer alone.

The second pillar is embodied by the current collection, offered in limited editions.

Timepieces that express the Maison's identity through defined designs, shared by a select few.

The third one will come...

Which historical figure inspired MAXIMUS the Largest Tourbillon in the World ?

MAXIMUS takes its cue from the Circus Maximus, the vast chariot-racing arena of ancient Rome, renowned for its grandeur and spectacle.

By echoing that name, the MAXIMUS timepiece proclaims its own record-breaking scale and theatrical spirit.

K E R B E D a N Z

Beyond Records: The Next Evolution

The evolution of our vision embraces ever bolder and more avant-garde expressions of micromechanical artistry.

To rival and surpass MAXIMUS, every line and proportion was reimagined in response to an ever-evolving world.

The result is the GR8 case, our new signature shape.

A radical fusion of tonneau, octagonal and spherical geometries, whose complexity required two years of research and development to master, opening a new chapter in contemporary watchmaking at KERBEDANZ.

A New Era

With the record-breaking MAXIMUS and the avant-garde MAXIMUS GR8, KERBEDANZ has established a lasting foundation, captivating watch enthusiasts in search of a true micromechanical show, whether expressed through a classic round case or the bold architecture of the GR8.

A new ambition naturally emerged: To create a timepiece that would capture the essence of the GR8 DNA, making this vision more accessible while remaining faithful to the Maison's commitment to micromechanical expression.

The answer is the MAXSPOR GR8: A high-performance chronograph that unites the iconic GR8 case with an innovative sports complication, expanding the horizons of the collection while remaining true to KERBEDANZ's pursuit of uncompromising watchmaking mastery.

MAXSPOR GR8

THE CHRONO MONOPUSHER BY KERBEDANZ

Starting from CHF 30'000- excluding taxes

MAXSPOR GR8

CHRONO MONOPUSHER - High accuracy precision - 4Hz

MAXSPOR GR8

The Art Behind the MAXSPOR GR8 Dial

The dial of the MAXSPOR GR8 is the result of a process developed exclusively for KERBEDANZ, born from a dialogue between horology and automotive craftsmanship.

To achieve the desired visual depth and surface tension, the Maison chose to collaborate with an automotive artisan whose expertise was forged within the highest standards of Rolls-Royce and Ferrari.

An unexpected encounter, where techniques traditionally reserved for bodywork finishing were reinterpreted for the scale and precision of watchmaking.

Over eight months of intensive research and development, materials, layering sequences and application methods were tested, refined and reworked.

The challenge was not only aesthetic, but technical: to obtain a perfectly controlled surface, capable of offering depth, luminosity and consistency, while meeting the strict constraints of a horological dial.

The result is a dial with an exceptional visual rendering, defined by subtle variations, controlled reflections and a singular texture that cannot be reproduced through conventional watchmaking processes.

This proprietary technique gives the MAXSPOR GR8 its distinctive identity.

A dial conceived not as a decorative element, but as a technical surface of expression, where precision engineering and artistic intuition converge.

K E R B E D a N Z

MAXSPOR GR8 41mm Pursuing Excellence:

Far from being a simple reduction in size, this evolution introduces a new caliber developed to preserve the spirit of the MAXSPOR GR8 while refining its mechanical identity. At its heart beats a new balance with adjustable screws, underscoring the Maison's commitment to precision, stability, and elevated chronometric performance.

This new chapter also pays tribute to the métiers d'art through a highly technical guilloché dial, where craftsmanship and mechanical sophistication enter into perfect dialogue. The result is a watch of greater versatility, yet unchanged in presence, one that retains the architectural power of the GR8 design while offering a more intimate, wearable interpretation.

With this 41mm MAXSPOR GR8, KERBEDANZ reaffirms its ability to evolve without compromise: broadening the collection's appeal while remaining faithful to its pursuit of micromechanical expression, design singularity, and uncompromising watchmaking mastery.

Broadening the Horizon: MAXIMA GR8

After MAXIMUS, featuring a six-minute tourbillon housed in a round case, and MAXIMUS GR8, distinguished by its two-minute tourbillon and signature GR8 case, the Maison expanded its trilogy with MAXSPOR GR8. A spectacular chronograph, it is defined by an openworked dial and a raised, inverted special balance wheel, offering a powerful expression of micromechanical performance.

These three exceptional creations are conceived for generous wrists. To deliver the same horological intensity in a more versatile format, KERBEDANZ envisioned a new interpretation.

The result is MAXIMA GR8, a harmonious homothety of the Maximus GR8, preserving its essential codes while opening the collection to a broader audience. MAXIMA GR8 retains the fundamentals that define the Maison's identity.

The revolutionary GR8 geometry, combining tonneau, octagonal and spherical forms. The unmistakable KERBEDANZ signature of micromechanical show.

A striking visual presence, now perfectly balanced for all wrists. Thus, a complete collection was born.

Faithful to the KERBEDANZ DNA, it speaks to lovers of fine watchmaking beyond considerations of size or gender, united by a shared appreciation for vision, mastery and design.

Rendez-vous dans 65 Minutes et 27 Secondes ...

To be unveiled in April 2026, MAXIMA GR8 is the long-awaited revelation for KERBEDANZ enthusiasts.

Its compact, unisex GR8 case houses a central automatic flying tourbillon completing one full rotation every minute, marking the third tourbillon developed by the Maison.

Three tourbillons. Three distinct rotation speeds. Three unique horological expressions.

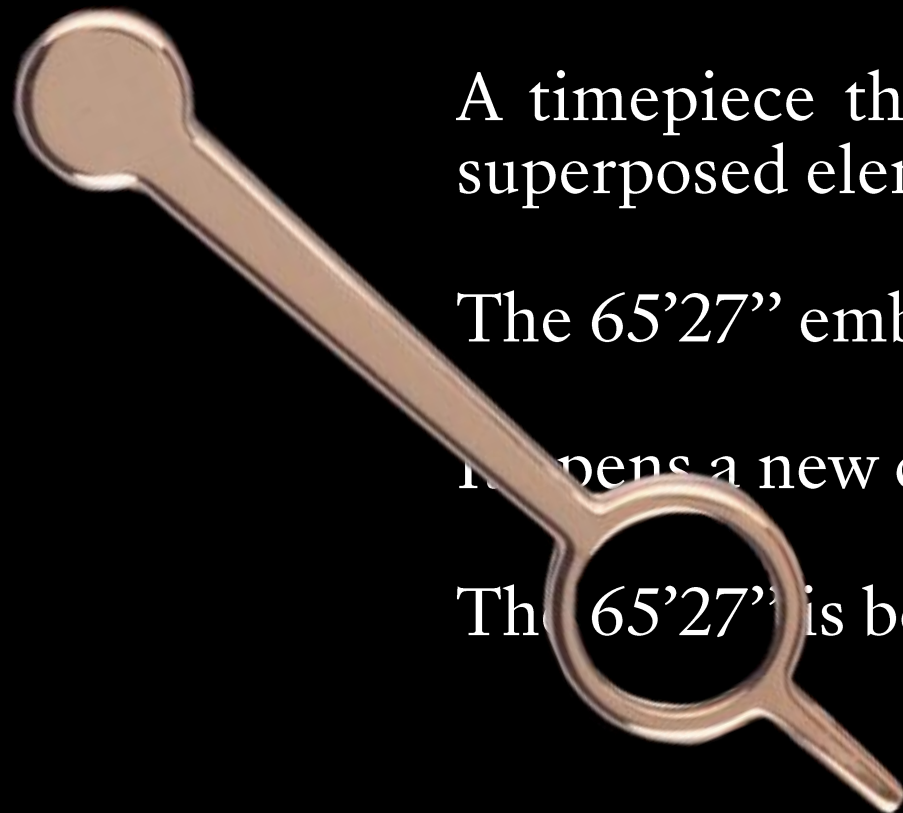

To complete this trilogy with a creation that is at once simple and complex, refined and universal, KERBEDANZ conceived the 65'27".

A timepiece that distills the Maison's iconic micromechanical show into an elegant choreography of superposed elements, unfolding every 65 minutes and 27 seconds.

The 65'27" embodies purity without renouncing the theatrical engineering that defines KERBEDANZ.

It opens a new chapter in fine watchmaking, where restraint and complexity coexist in perfect balance.

The 65'27" is born.

Three Paths. One Maison.

At KERBEDANZ, every creation is guided by one of three distinct paths.

Three pillars.

Three ways to experience the Maison.

The first represents the ultimate expression of KERBEDANZ.

The creation of a unique timepiece, conceived entirely to measure.

A singular experience, where a watch is born from dialogue and crafted for one wearer alone.

The second pillar is embodied by the current collection, offered in limited editions.

Timepieces that express the Maison's identity through defined designs, shared by a select few.

The third pillar gives form to pure creative freedom.

Driven by instinct and vision, Chief Design Officer Aram Petrosyan explores his most personal inspirations through his vision. Ultra-limited, off-catalogue creations, born beyond constraint, where design leads and intuition prevails.

Together, these three pillars define the universe of KERBEDANZ.

From the unique, to the limited, to the visionary.

K E R B E D A N Z

VERY LIMITED TIMEPIECES : *THE DESIGNER'S VISION*

“Every true creative mind is driven by a necessity.

Not to conform, but to express.

Not to repeat, but to transcend.”

At KERBEDANZ, this conviction is embodied by Chief Design Officer and co-founder Aram Petrosyan, who claims absolute creative freedom as an essential condition of creation.

Aram Petrosyan

**VERY LIMITED TIMEPIECES :
*THE DESIGNER'S VISION***

Each year, this vision takes form through an exclusive, ultra-limited, off-catalogue series, conceived beyond constraints, beyond conventions, beyond expectation.

The Designer's Vision is not a collection.
It is a territory of expression.

Here, intuition leads design. Art precedes function.
Micromechanics becomes language.

Each timepiece is conceived as a singular work, born from pure inspiration and crafted without compromise.

Reserved for the Maison's most devoted connoisseurs,
The Designer's Vision reveals creations found nowhere else.

Pieces that do not seek validation, but existence.

Objects that deepen the very essence of the
KERBEDANZ experience, where creativity is not
guided by limits, but by conviction.

OUR METIERS D'ARTS

At KERBEDANZ, our avant-garde DNA shines through major horological complications: Monumental tourbillons, minute repeaters, exceptional chronographs. Yet true haute horlogerie reaches beyond mechanics alone.

It comes to life in the artisan's hand, where every detail becomes a work of art and showcases the singular savoir-faire cultivated within our Atelier.

In the pages that follow, explore the exceptional disciplines that infuse every KERBEDANZ creation with its unique artistic depth and emotional resonance.
